Experience

Smith Commerce — Senior Front End Developer

May 2025 – Present

Rebuilt Marcone's storefront into a faster, more accessible headless experience while giving teams room to ship independently.

KEY IMPACT

- Lighthouse score improved from 35 to 98
- Time to Interactive dropped by 75%
- 100% accessibility score on the rebuilt storefront

X Games — Senior Full Stack Engineer

Jan 2025 – Jul 2025

Built and scaled the official X Games digital platform — a high-traffic sports media site serving millions of fans — with real-time live streaming, geo-based access control, and a programmatic ad infrastructure powered by Google Ad Manager.

KEY IMPACT

- 56+ pull requests merged across two codebases
- Real-time geo-based live stream access across global audiences
- Full Google Ad Manager programmatic infrastructure shipped from scratch

Datagran — Front-End Lead

Dec 2018 – Jan 2020

Led the front-end modernization of an AI martech platform, cutting bugs by 30% while moving the product from jQuery to a scalable React and TypeScript architecture.

KEY IMPACT

- 30% fewer bugs after the front-end migration
- React and TypeScript architecture replacing legacy jQuery surfaces
- Product work supporting brands such as Rappi, Subway, and Telefonica

Justbit.site — CTO & Co-Founder

Apr 2017 – Dec 2018

Co-founded a boutique software studio that shipped 10+ client launches in its first year and helped selected clients grow organic traffic by up to 70%.

KEY IMPACT

- 10+ client launches in the first year
- Up to 70% organic traffic growth for selected clients
- Full-cycle delivery from sales conversations to launch

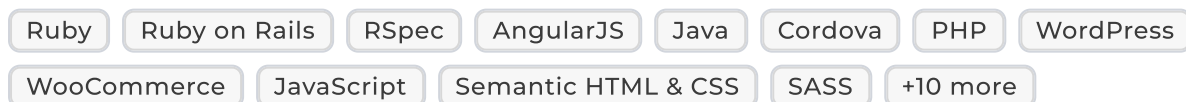

Nebular Technologies — Full Stack Developer

Jan 2014 – Apr 2017

Shipped client web, Android, and commerce products across Rails, AngularJS, Java, and WordPress, building the release discipline and full-stack range I still rely on today as a senior engineer.

KEY IMPACT

- Shipped across backend, frontend, mobile, and CMS work in one studio
- Built the foundation for later tech lead and full-stack roles
- Learned testing, reviews, and release discipline under real deadlines

Projects & Community

Lumen UI — Creator

Jul 2026 – Present

Built a multi-framework design system with 123 accessible primitives for Astro, React, and Web Components, plus Figma, agent, MCP, and registry workflows.

KEY IMPACT

- Ships 123 accessible primitives across Astro, React, and Web Components
- Shares tokens, contracts, styles, and interaction patterns without forcing one runtime
- Includes Figma resources, an agent skill, MCP server, llms.txt, and a machine-readable registry

Dep Beacon — Creator

Jun 2026 – Present

Built and published a VS Code extension that brings npm dependency status, update targets, pnpm workspace catalog context, and OSV security signals into package manifests.

KEY IMPACT

- Published for VS Code users through Visual Studio Marketplace and Open VSX
- Shows inline dependency status, diagnostics, CodeLens update actions, and package-manager commands
- Understands package.json, pnpm workspace catalogs, overrides, package extensions, and OSV vulnerability signals

Aaronmgz — Creator

May 2026 – Present

Built a growing family web platform with a nautical personal site, public message board, baby-shower experience, admin tools, and a shared Cloudflare API.

KEY IMPACT

- Unified four public and private experiences behind one domain
- Built shared contracts, content, database helpers, localization, media, and UI packages
- Added migration, schema-drift, accessibility, end-to-end, and deployment checks

Santi020k Theme — Creator

Apr 2026 – Present

Built one calm violet theme system for VS Code-compatible editors, Chrome, six terminal formats, Starship, Shiki, websites, and reusable design tokens.

KEY IMPACT

- Published through the VS Code Marketplace, Open VSX, Chrome Web Store, npm, GitHub Releases, and Homebrew
- Expanded the editor theme to 12 dark, light, high-contrast, bold, and italic variants
- Carried one token system across editors, Chrome, Shiki, six terminal formats, Starship, shell integration, and four product sites

Astro Doctor — Creator

Jan 2026 – Present

Built a deterministic Astro health-check toolkit with a CLI, ESLint plugin, editor extension, GitHub Action, docs site, and installable agent skills.

KEY IMPACT

- Catches Astro-specific performance, accessibility, security, and best-practice issues
- Reports health scores in local, editor, and CI workflows
- Installs agent skills that teach coding assistants Astro standards

@santi020k/eslint-config-basic — Creator

Mar 2024 – Present

Built a DX-first ESLint toolkit for JavaScript and TypeScript teams that want stronger defaults, less setup friction, and cleaner reviews.

KEY IMPACT

- 229+ weekly npm downloads across personal, client, and shared codebases
- Reduced repeated setup work for new projects and experiments
- Encoded strong defaults across React, Next.js, Astro, and monorepos

@santi020k/eslint-config-santi020k — Creator

Jan 2023 – Mar 2024

Turned internal linting conventions into a reusable package that standardized React and TypeScript projects and paved the way for @santi020k/eslint-config-basic.

KEY IMPACT

- Shared one reusable lint baseline across multiple React and TypeScript projects
- Reduced repeated setup work for new apps and experiments
- Created the foundation later rebuilt into eslint-config-basic

TEDx Medellin — Technology Coordinator

Jan 2019 – Jun 2019

Volunteered as Technology Coordinator for TEDx Medellin 2019, launching the WordPress event site and supporting a sold-out edition with Justbit-led UI and visual work.

KEY IMPACT

- Supported a sold-out 2019 TEDx Medellin edition
- Launched the WordPress site for the 'Dialogo' event theme
- Justbit featured among the participating brands after leading UI and visual delivery

Marketing CollaborationContent StrategyEvent Operations

ReactJS Colombia — Co-Organizer

Jan 2017 – Present

Co-organize one of Medellin's most active React communities, sustaining free meetups and workshops that drew 100+ participants at peak sessions.

KEY IMPACT

- Dozens of events since 2017
- 100+ participants at peak sessions
- Community talks, workshops, and mentorship across experience levels
