Experience

Smith Commerce — Senior Front End Developer

May 2025 – Present

Built commerce experiences for two Smith clients: Marcone's headless storefront and F.W. Webb's purchasing, account, and product discovery workflows.

KEY IMPACT

- Marcone: Lighthouse score improved from 35 to 98
- Marcone: Time to Interactive dropped by 75%
- 100% accessibility score on Marcone's rebuilt storefront
- Marcone: First Contentful Paint improved by 60%

X Games — Senior Full Stack Engineer

Jan 2025 – Jul 2025

Built and scaled the official X Games digital platform — a high-traffic sports media site serving millions of fans — with real-time live streaming, geo-based access control, and a programmatic ad infrastructure powered by Google Ad Manager.

KEY IMPACT

- 56+ pull requests merged across two codebases
- Real-time geo-based live stream access across global audiences
- Full Google Ad Manager programmatic infrastructure shipped from scratch

Void.GG — Technical Lead

Feb 2023 – May 2025

Led architecture and delivery for a fast-moving esports platform across web, mobile, and backend systems, improving performance, release speed, and team velocity.

KEY IMPACT

- 35% better system performance
- 60% faster deployments
- 95%+ sprint velocity

Optic Power — Senior Full Stack Engineer

Jul 2021 – Feb 2023

Shipped across gaming, SaaS, and martech products in parallel, improving API performance by 40% while supporting launches for Team Liquid, NurtureBoss, and Stardust.gg.

KEY IMPACT

- 40% better API performance
- Multiple client launches in parallel
- Shipped product work for Team Liquid, NurtureBoss, and Stardust.gg

Earlier Experience

PADS — Technical Lead

Jan 2020 – Jul 2021

Led the web, back-office, and mobile experience for a luxury real estate platform, growing monthly active users by 50% and improving broker workflows.

Datagran — Front-End Lead

Dec 2018 – Jan 2020

Led the front-end modernization of an AI martech platform, cutting bugs by 30% while moving the product from jQuery to a scalable React and TypeScript architecture.

Justbit.site — CTO & Co-Founder

Apr 2017 – Dec 2018

Co-founded a boutique software studio that shipped 10+ client launches in its first year and helped selected clients grow organic traffic by up to 70%.

Nebular Technologies — Full Stack Developer

Jan 2014 – Apr 2017

Shipped client web, Android, and commerce products across Rails, AngularJS, Java, and WordPress, building the release discipline and full-stack range I still rely on today as a senior engineer.

Community

ReactJS Colombia — Co-Organizer

Jan 2017 – Present

Co-organize one of Medellin's most active React communities, sustaining free meetups and workshops that drew 100+ participants at peak sessions.

KEY IMPACT

- Dozens of events since 2017
- 100+ participants at peak sessions
- Community talks, workshops, and mentorship across experience levels
